

Products For Patching Walls – Nail Holes

Dap Lightweight Spackling

1. Fill hole/chip with light-weight spackle.
2. Wipe off ant excess with a damp cloth.
3. Let spackle dry & then paint over hole.

Behr Ultra Pure White (Satin)

Use paint to touch up doors, edges or walls after moving furniture or etc.

Using any other products will not match and cause more work to repair & expense. (i.e.: oil base caulking or spackle and another company trying to match paint color)
